---

To provide the best care possible for your pet, we may need to perform diagnostic bloodwork, administer fluids, take radiographs, perform an ultrasound, or administer drugs. Your pet may also need sedation. Please check one of the following:

\_\_\_\_\_ Please contact me after the examination with recommendations for diagnostics or treatments.

\_\_\_\_\_ Do whatever is absolutely necessary for diagnostic purposes or for the comfort of my pet.

It is our desire to keep you fully informed about your pet's status, therefore it is very helpful that you be available at the number you listed above. We will take the necessary steps for treatment in a life-threatening situation.
